## General Risk Factors

An indicative list of the risks associated with investing through the services is set out below:

1. Equity and Equity related Risks: Equity instruments carry both companies specific and market risks and hence no assurance of returns can be made for these investments.
2. Price/Volatility Risk: Equity Markets can show large fluctuations in price, even in short periods of time. Investors should be aware of this and only invest in equity or equity-related products if their investment horizon is long enough to support these important price movements.
3. Clients are not being offered any guaranteed/assured returns.
4. The value of the asset may increase or decrease depending upon various market forces affecting the capital markets such as de-listing of Securities, market closure, etc. Consequently, we make no assurance of any guaranteed returns.
5. Our past performance does not guarantee the future performance of the same.
6. Investment decisions made by the Investment Adviser may not always be profitable
7. Not following the recommendation or allocation may impact the profitability of the Portfolio.
8. System / Network Congestion: Recommendation communicated via electronic modes i.e. Email exists a possibility of delivery failure, which may be beyond our control.
