The MILARS Portfolio

MILARS is an Award winning strategy based on Six guiding principles & is designed to achieve an evergreen portfolio.

The strategy sets the ground rules for choosing leading stocks at optimum levels, which are expected to rise and rally over and above the respective benchmarks.

It's predefined selling rules ensure that the risk-reward ratio is maintained throughout, losses are cut short and the portfolio remains healthy.

01

The MILARS Portfolio

The Six Pillars of MILARS

M - Market Direction	Recommendations to buy & accumulate only when the market is in an uptrend.
I - Industry Ranking	Identifying the leading industries in the market.
L - Leading Company	We only recommend market leaders.
A - Acceleration	Focus on companies with explosive earnings growth.
R - Relative Strength	Recommendations based on high and sustainable price strength.
S - Selling Rules	Cut your losses short and let your winners run.

02

The Emerging Multibaggers

The art of choosing hidden gems

Are you an investor looking forward to build long term wealth?

If yes, then the Multibagger Portfolio is just right for you.

The Multibagger portfolio is designed for investors who desire to invest in hidden gems which carry the extraordinary potential to deliver extraordinary returns.

The essence of the strategy lies in capturing young companies and watching them grow.

Quality multibagger stocks have the potential to generate enormous returns over a mid-long term trajectory.

03

The Bluechip Portfolio

Capture the best of the best!

Are you an investor who desires to own a superior quality portfolio with minimum risk?

If risk averse high quality stocks are your goal then the Bluechip portfolio is your perfect fit.

The essence of the strategy lies in capturing the stability of well established business houses.

Blue-chip companies are qualified as high-quality and are usually large cap companies. Typically, they have been in business for many years and are considered to be very stable with consistent revenues.

04

The Small-Cap core Portfolio

Reap the budding jewels!

Do you want to profit from budding Small-cap stocks and watch them turn into Mid-caps?

If you want to be a part of the Indian Small-caps growth story then the Small-cap core portfolio is your solution.

The essence of the strategy is to capture the transitional growth of stocks from Small-caps to Mid-caps.

It is built to catch companies that are at their nascent or developing stages and are under-researched or comparatively unexplored.

Quality Research leads to Quality Investment Decisions.

We bring you easy access to World class Research!

General Risk Factors
An indicative list of the risks associated with investing through the services is set out below:

1. Equity and Equity related Risks: Equity instruments carry both companies specific and market risks and hence no assurance of returns can be made for these investments.

2. Price/Volatility Risk: Equity Markets can show large fluctuations in price, even in short periods of time. Investors should be aware of this and only invest in equity or equity-related products if their investment horizon is long enough to support these important price movements.

3. Clients are not being offered any guaranteed/assured returns.

4. The value of the asset may increase or decrease depending upon various market forces affecting the capital markets such as de-listing of Securities, market closure, etc. Consequently, we make no assurance of any guaranteed returns.

5. Our past performance does not guarantee the future performance of the same.

6. Investment decisions made by the Investment Adviser may not always be profitable

7. Not following the recommendation or allocation may impact the profitability of the Portfolio.

8. System / Network Congestion: Recommendation communicated via electronic modes i.e. Email exists a possibility of delivery failure, which may be beyond our control.
